INTRODUCTION

1. This Joining Instruction (JI) has been issued to assist you in your preparation to participate in 311 Squadron's .22LR Live Fire Range Practice on Saturday 13 Apr 19. This is a practical firearms activity consisting of scored shooting serials using standard small bore targets over 25 metres. The firearms used will be .22LR calibre bolt action CZ452 rifles. Ammunition used will be .22LR standard velocity target rounds. For the duration of the activity you will be under the command of the Activity OIC, FLTLT(AAFC) Neal Rogers. The activity will be conducted in two phases, being:

- a. Phase 1: Shooting Team training; and
- b. Phase 2: Squadron practice.

2. This Joining Instruction is an authoritative document; you are to read and comply with its contents. Speak to senior cadets at your Squadron who have attended activities like this in the past. They will prove an invaluable source of information regarding what to expect.

ADMINISTRATIVE DETAILS

3. **Forms and documentation.** You must ensure that you bring your Australian Air Force Cadets Identification (AAFC ID) Card.
4. An 'Activity Notification and Consent Form' is to be downloaded from, correctly completed and reuploaded to the activity in CadetNet **ONE WEEK** prior to the commencement of the activity. **It must be signed by your parent or legal guardian if you are under 18 years of age.** The original should be brought with you on the activity. Have this document ready to present to staff on arrival.
5. Should you be unable to access CadetNet then the current version of the 'Activity Notification and Consent Form' can be sourced via the 3WGAAFC Portal within CadetNet: <https://members.cadetnet.gov.au/aafc/3WG/3WG%20Resource%20Centre/1.%20Forms%20and%20Templates>
6. **Medical conditions, allergies and dietary requirements.** It is important that 'Your Health Declaration' and all other medical and emergency contact details are up to date in CadetNet. You should inform the First Aid Officer or activity staff as soon as possible if you have any medical conditions, allergies or special dietary requirements. Any acute injury, illness or contagious/infectious diseases in the last 4 weeks require a doctor's certificate to be presented to the First Aid Officer or activity staff. This will ensure that your needs are taken into account when attending the activity. **Cadets should also arrive on the activity with copies of any required health management plan.**
7. **Medical conditions, allergies and dietary requirements.** It is important that you inform the First Aid Officer or activity staff as soon as possible if you have any medical conditions, allergies or special dietary requirements, as well as stating them clearly on your TR66 'Consent Form - AAFC Activity'. This will ensure that your needs are taken into account when attending the activity. **Cadets should also arrive on the activity with copies of any required medical management plan.**
8. The Australian Defence Force (ADF) is unable to provide a severe food allergy free environment (such as from peanuts) in relation to the consumption of food during cadet activities. Such a risk may be life threatening for people who suffer from a severe food allergy. Parents may consider it is in their child's best interest not to allow participation of their child in the proposed activity. In the event that the child is allowed to attend a catered cadet activity, the parents may choose to provide, at their own expense, sufficient food to cover the duration of the activity.
9. If you or your parents have any concerns on these matters, you should speak with your SQN staff.
10. A Food Allergy Management Plan (FAMP) is not required for this activity as participants will be providing their own food.
11. **Activity related costs.** Nil
12. **Contact information.** During the activity, the OIC or activity coordinator may be contacted in the case of an emergency. Please note, only contact the OIC in the case of an emergency.
